

Tetris Team Project

ASE 420

Team Yellow

Project Progress

What we have completed

- Project architecture
- Code refactoring
- GitHub structure
- Start Menu
- Score System
- Initial testing

Start Menu

Main Menu

START GAME

QUIT

- Menu navigation
- Game state connection
- Simple and easy to use

Score System

Points

Action	Points
1 Line	100
2 Lines	200
3 Lines	300
4 Lines	400
Soft Drop	1 / row
Hard Drop	2 / cell

Game Architecture

Main Parts

GameEngine

Controls the game

GameState

Controls different screens

Board

Manages the Tetris board

Piece

Manages Tetris pieces

Code Improvements

Before

- Large original file
- Many global variables
- Game logic mixed together

Now

- Separate components
- Clear responsibilities
- Easier to maintain
- Easier to add features

Current Progress

Completed

- Architecture
- Refactoring
- GitHub structure
- Start Menu
- Score System

In Progress

- Testing
- Additional features

Next Steps

Features

- Level system
- Faster fall speed
- Combo system
- High scores
- Difficulty
- More testing

Thank You
